### **The Course:**

The study of housing and community development encompasses a variety of issues related to: neighborhood planning, citizen participation, grassroots organizing, housing policy, economic development, social welfare, public safety, health, education, recreation, the environment and other aspects of community life. During the semester these issues will be examined in relation to institutional constraints in US cities. The course applies a critical framework to the examination of housing and community development systems in the US, focusing on historic patterns of discrimination and societal inequality that have been reinforced and perpetuated through urban social institutions. A substantial portion of the semester will focus on how institutions shape: housing systems, public schools, and mega-projects. Course content and activities include: readings, lectures, discussions, and applied analysis.

As we explore linkages between community development and urban institutions, you should maintain a holistic view and remain conscious of how each dimension interacts with others. In addition to examining substantive issues in community development, this course focuses on critical thinking.

During the semester we will discuss the assigned readings and do other activities. Everyone should be prepared to attend class and participate on a weekly basis.

If you have any questions during the semester, bring them to the instructor's attention. He will be available during office hours and by appointment. Also, you can contact him using e-mail.

### **Course Objective:**

The course objectives for END406 / END606 / URP606 are listed below. The course assignments will be used to assess knowledge of the course objectives. Course assignments that assess specific course objectives are identified in the course requirements section of this syllabus.

**Course Objective 1:** Increase awareness of how historical and contemporaneous patterns of race, class, gender and other forms of inequality influence the structure, implementation and effectiveness of housing and community development policy in the United States.

**Course Objective 2:** Develop relevant writing, analytic, presentation and graphic skills to apply course object 1 to planning analysis, practice, and advocacy.
